

Stage 5 Agricultural Technology

Name:

Practical report: Worms

Now that you have your worm farm established it is essential to monitor the environmental factors that may affect the worms growth and reproduction. Complete the following report.

Aim:

Method:

This image shows a blank sheet of white paper with horizontal ruling lines. The lines are evenly spaced and extend across the width of the page. There are no margins, text, or other markings on the paper.

Results:

Table: Worm farm temperature and pH measurements over a period of time

Date	Time	Air temp. (°C)	Bedding temp. (°C)	pH

Graph: Worm farm bedding and air temperature over a period of time

Graph: Worm farm pH measurements over a period of time

Discussion of results:

Conclusion:

Recommendations and further measurements:
